July 2025 – August 2025

Full-Time Internship in Software Development Department

Maadi, Cairo

- Developed an InGaz API Mobile Application

TAQA Arabia

August 2024 – September 2024

Full-Time Internship in IT Department

Maadi, Cairo

- Devices' Software Management
- All Users' accounts Management

ACPC Club

2023- Currently

Member in ACPC Club

IEEE Club

2023- Currently

Member in IEEE Club

Projects

Car Rental Website | *HTML, CSS, MongoDB, Nodejs, JavaScript*

May 2025

- Developed a comprehensive e-commerce platform for users to browse and rent cars.
- Implemented features like user authentication, product catalog management, and order processing.
- Utilized MongoDB for efficient data management and storage of products, users, and orders.

Restaurant Management System | *Java, JavaFX*

December 2024

- Created a recruitment system with a graphical user interface for managing job postings, applications, and interviews.
- Utilized Java for core functionality and JavaFX for the user interface.

In Gaz API System | *C#, Flutter*

July 2025

- Built a Flutter-based mobile application frontend, integrated with a .NET Core Web API backend.
- Developed the backend using C# with MVC pattern, implementing secure role-based access and CRUD operations.
- Utilized Swagger for API testing and validation to ensure smooth integration.

Employee Attendance and Leave Management System | *HTML, CSS, PHP, MySQL*

December 2025

- Developed a web-based employee attendance and leave management system to automate tracking and approval processes.
- Implemented event and announcement features for birthdays, anniversaries, and company updates.
- Designed and maintained a secure relational database with role-based access control.

Sleeping Alert System | *Python, Flutter*

December 2025

- Developed a sleeping alert system using Python and Flutter as part of an HCI course.
- Applied usability and interaction design principles to deliver effective alert mechanisms.
- Built a responsive mobile interface for real-time alerts.

Technical Skills

Languages: PHP, C ,Python, Java, HTML, CSS, JavaScript, SQL, C++, C#, Flutter, Dart

Databases: SQL, MongoDB, Firebase

Developer Tools: VS Code, Apache NetBeans, XAMPP, Git, GitHub, Android Studio

Frameworks: NodeJs, ExpressJs

Microsoft Office 365: Word, Excel, Powerpoint, Access

Design Tools: Adobe Photoshop, Adobe InDesign, Adobe Premiere, Filmora

Data Analysis: Orange Data Mining

Other Skills: Data Structures, OOP

Soft Skills

- Strong Teamwork Abilities
- Problem-Solving
- Time Management and Organizational Skills

Education

Misr International University

September 2023 – June 2027

Bachelor of Science in Computer Science

Languages

- Arabic: Native
- Engilsh: Fluent
- French: Beginner
