

Motivated Junior CS student at **Misr International University (MIU)** skilled in enterprise backends (Spring Boot, .NET Core Web API), web applications (React, Node.js, Express), mobile (Flutter/Dart), and relational/NoSQL databases (MongoDB, PostgreSQL, MySQL). Proven experience during technical internships at **TAQA Arabia** & **Cairo Higher Institute** building production REST APIs, mobile apps, and institutional web systems. Active competitive programmer in **ACPC** and **IEEE**.

EDUCATION & EXTRACURRICULAR ACTIVITIES

- Bachelor of Science in Computer Science • Misr International University (MIU)**

Sep 2023 – Jun 2027 | Cairo, Egypt

 - Coursework:** Data Structures & Algorithms, OOP, Database Schema Design, Web Architecture, HCI Usability, Software Engineering.
 - ACPC Club Member (2023 – Present):** Active participant in competitive programming workshops, algorithms, and team contests.
 - IEEE Student Branch Member (2023 – Present):** Collaborated in software workshops, tech hackathons, and developer sessions.

PROFESSIONAL EXPERIENCE

- Software Development Intern • TAQA Arabia**

July 2025 – August 2025 | Maadi, Cairo

 - Contributed to developing the **In Gaz API Mobile Application** using Flutter frontend and C# .NET Core Web API backend.
 - Engineered secure RESTful endpoints, MVC architecture, role-based access control, and interactive mobile UI views.
- IT Department Intern • Cairo Higher Institute**

August 2025 – September 2025 | 1st Settlement, Cairo

 - Administered domain email accounts and user credentials on the institute's official domain server.
 - Updated and maintained the institute's official front-end web portal via WordPress and custom CSS/JS.
- IT Department Intern • TAQA Arabia**

August 2024 – September 2024 | Maadi, Cairo

 - Managed software installations, security configurations, device management, and tier-1 IT helpdesk support.

FEATURED SOFTWARE ENGINEERING PROJECTS

- Gulf Limousine Luxury Booking Platform**

July 2026

Stack: Flutter, Dart, Firebase Firestore, REST API

 - Cross-platform luxury mobile booking app with real-time driver allocation, fleet selection, fare estimation, and booking management.
- Essmat Plastic Factory Management System**

September 2026

Stack: C#, .NET, SQL Server, Entity Framework

 - Enterprise inventory & production management system optimizing raw material tracking, order processing, and factory billing.
- Food Ordering Management System**

May 2026

Stack: Spring Boot, React.js, Tailwind CSS, MongoDB

 - Full-stack food ordering system with RESTful APIs, JWT authentication, shopping cart, order tracking, and Admin profit analytics.
- Dr. Naglaa Academic Biography Portal**

September 2026

Stack: HTML5, CSS3, JavaScript, Responsive Design

 - Academic showcase portal for faculty publications, research paper archives, CV downloads, and student contact channels.
- In Gaz API Mobile & REST System**

July 2025

Stack: Flutter, C# .NET Core Web API, Swagger

 - Flutter client integrated with C# ASP.NET Core API backend, role authentication, CRUD endpoints, and Swagger testing.

TECHNICAL SKILLS

Languages:

JavaC#C++CPythonJavaScriptPHPDartSQL

Frameworks:

Spring BootReact.jsFlutterExpress.js.NET Core APINode.js

Databases & Tools:

PostgreSQLMongoDBFirebaseMySQLGitGitHubDockerPostman

INDUSTRY CERTIFICATIONS

- TAQA Arabia Software Internship Certificate**
TAQA Arabia Engineering Dept • Aug 2025
- Cisco JavaScript Essentials 1 & 2**
Cisco Networking Academy & OpenEDG • Jul 2025
- Cisco C Essentials 1 Certification**
Cisco Networking Academy & OpenEDG • Jul 2025
- Introduction to Cybersecurity**
Cisco Networking Academy • Jul 2025
